**ANNIE'S 4TH ACE: A ROMANTICALLY FUNNY ANNIE
MCCAULEY MYSTERY (THE ANNIE MCCAULEY
ROMANTIC COMEDY MYSTERIES) BY WILLEE AMSDEN
PDF**

Annie McCauley hasn't given up on her dream of being a high fashion model. Her evil arch rival, Brittany Carstairs who grew up in the same trailer park in Mesa View Texas has gotten her fired from every job she's had, but when she lands another gig she's sure Brittany won't get the best of her and she'll be able to quit her job working for Ida Grolsch delivering and protecting people.

But before she can say, "Foiled again!" she's pounding the pavement and working with Luther Grolsch, Ida's sexy, dangerous, son who just happens to be in love with Annie. Annie takes the gig to pay the rent and asks herself, "How difficult could it be to deliver two old geezers to Key West?" Four corpses later, Annie has her answer and a family mystery that must be solved with the help of Luther and her gay, Latino, sidekick, Luis. <http://anniesrules.com>

3 of 3 people found the following review helpful.

It was a fun read, quick paced, and had me guessing all the way through.

By Kathleen Fields

I liked the book, but must say that it's probably geared towards readers who are younger than me (I'm a senior citizen). It was a fun read though, quick paced and had me guessing all the way through. Annie is fresh and spunky, and follows the clues no matter where they lead her with not much concern for her own safety. I guess that's what you do when you're young and haven't seen enough of the world to be more wary. I kind of admire that about her and wish I had a little bit of her go for broke attitude. The other characters are well written and it was fun getting to know them. I need to read her first three adventures to catch myself up! I was given a copy of the book in exchange for an honest review and hope that it's helpful to both the author and the readers.

Fun Fast Paced Read

By Missy Richmond

What a fun read! This is the fourth book in the Annie McCauley series. I've read the first 3 as well, so I can confidently say that each novel easily stands alone. While reading the whole series provides some insights along the way, it's not integral to the main plot point. There were very few editing errors which was nice. This is a fast paced humorous read. I did figure out the mystery about 3/4 way into the story, but I didn't put

it all together until the end. I really enjoy this series, and await the next book release. I was provided a free copy of this book in exchange for an honest review.

2 of 2 people found the following review helpful.

Wonderful, well-paced mystery.

By Tammy

I was provided with a complementary copy of this book so I could give an honest review.

The characters were well developed, and the story line was very well done. I felt like I was along for the ride, which is exactly how I think the reader should feel. The characters were just that - every day characters that we can relate to. The twist at the end came as a complete surprise and I was delighted at the way it was introduced. My deductive skills never guessed this one coming. My only constructive comment would be to watch the punctuation. Otherwise, great ride, great read!
