Kaplan's, 5-Steps, Crash Course and the others are great resources for reviewing at the end, but Tamm's Textbook Tools accompany kids all year long. This AP Human Geography companion is filled with vocab and assignments that follow the de Blij text throughout the year, chapter-by-chapter. They can be used as regular weekly assignments or reviews. They can be used on short notice if there is a sub, or be done as homework. All you need is the textbook. Teachers can copy at will, or the book can be used as a student consumable. As publishers started putting the majority of their content online, it opened a niche for traditional paper assignments, a void this series fills. Whether the text itself is written in ink or electrons, students still need to write and keep a notebook for themselves, and portfolios still matter. These activities challenge students to apply the concepts and give examples, diagramming each chapter as it comes. Surprisingly helpful

By Modern Victorian

When students turn in their tests, they immediately pick up the packet for the next chapter I make out of this workbook and get started. That way students who finish the test early have something to do. Then I have them keep it out during class time, and they can work on it at their own pace. Always something to focus and fall back on.
