BUBISHI: THE CLASSIC MANUAL OF COMBAT FROM TUTTLE PUBLISHING PDF

Treasured for centuries by karate's top masters, the Bubishi is a classic Chinese work on philosophy, strategy, medicine, and technique as they relate to the martial arts.

Referred to as the "bible of karate" by famous master Chojun Miyagi, for hundreds of years the Bubishi was a secret text passed from master to student in China and later in Okinawa. All of karate's legendary masters have studied it, applied its teachings, or copied passages from it. No other classic work has had as dramatic an impact on the shaping and development of karate as the Bubishi.

Karate historian and authority Patrick McCarthy spent over ten years researching and studying the Bubishi and the arts associated with it. The first English translation of this remarkable martial arts manual includes numerous explanations and notes. McCarthy's work also includes groundbreaking research on Okinawan and Chinese history, as well as the fighting and healing traditions that developed in those countries, making it a gold mine for researchers and practitioners alike. For the final word on the true origins and spirit of classic Okinawan martial arts, one need look no further. This karate book is one of the best karate training supplements available.

This new paperback edition includes additional commentary from the translator, as well as a new foreword.

It's Like a 'Free Candy' Van Full of Birthday Cake Flavored Protein Powder

By Cody

So, this is my 3rd Bubushi purchase. Well, 4th. But my 3rd as translated and presented by Mr. McCarthy.

I got this one for two reasons: that sweet new cover, and the additional material presented in addition to the Bubushi itself.

At the price, it's worth it alone for Mr. Andreas Quast's excellent history of the tome.

I'd go on and on about why a 'serious karate-ka' or whatever should own it, or how it can give insight into the ur-methods of kata design and technical interpretation (and the training methods which spring from such understanding), and a dozen other things.

But I won't.

If you have a copy, it's not going to enhance your martial art more than the previous edition. But it will give you more insight into the material, the journey it's been on, and an idea about the people that first walked that road.

If you don't have a copy, this one is a lower price than I paid for the last one, so it's a deal.

Don't waste your money

By Steve

This is essentially the same as the last edition but with some new intros. If you already have a copy then don't waste your money.
