CALIFORNIA CRIMINAL LAW: CASES AND PROBLEMS BY STEVEN F. SHATZ PDF

This book emphasizes cases and problems as a vehicle for teaching students how to read and understand cases and statutes and to construct legal arguments. The cases are presented in relatively complete form, often with concurring and dissenting opinions in order to give students examples of fully developed legal arguments. The many short problems throughout the book are all taken from real cases and ask the students to develop the appropriate legal arguments based on the cases they have read. Each chapter begins with an introduction to give background to the cases and to outline the issues to be explored. Notes, which have been kept to a minimum, are generally used to extend the students' analysis by asking them to consider theoretical or policy issues raised by the cases or alternative approaches contained in the Model Penal Code or other jurisdictions. The Third Edition includes many new and influential California cases, as well as new problems, continuing the commitment to showing the students current developments in the criminal law.

Makes the law clear but too much opinion shows through

By TBird

Kindle: Works great for law books if you don't have an open book exam. Kindle software on Android, iOS (iPhone, iPad, etc), PC/Mac allows for reading on the go while you get to class... you know, *of course* only to "review" what you read a night or two before. :P

The Book itself: The law is presented clearly through nicely edited opinions of the judges in the biggest cases. Us students complain a fair amount (and usually validly) that the publishers make new editions with no new content just to scam you out of more of your student loans. However, in this case, the book has actually been updated with the latest case law (some 2011 cases in here). The only problem I have with the book (and what keeps it from being 5*) is that through VERY selectively showing dissenting opinions the author gives away his bias on the subject. A small gripe to be sure but we're in law school to learn the law as the legislature has written it and the courts have interpreted it, not to be given an opinion on whether the law is right or wrong.
