Decent prep, but needs to cover word problems

By Zack Ranta

This book was pretty good and it teaches you all the calculus you need to know for the AP, but it does not help you with the AP free response section that much (which is where most points get deducted).

It is a nice review book with a lot of explanation

By AJ

It is a nice review book with a lot of explanation. I hope there can be more description in polar and vector functions.
