From School Library Journal

Grade 7 Up—This book combines the bold and energetic lines of graffiti art with the bright colors of cel-shaded video games and an obvious Japanese manga influence. Many aspects of it are different from other how-to-draw books. Most don't discuss genre-specific concepts like wild style lettering or hip-hop clothing. The teaching itself is unique and totally accessible: the drawing instructions are narrated by two brothers, with the younger learning techniques from his older sibling in a way that anticipates the relationship between readers and the book's creators. Scattered among basic drawing instructions are such ruminations as hip-hop is a force majeure, a vibrant, moving, breathing energy and If you're drawing hip-hop, it's necessary to get into the places where hip-hop lives, and I don't mean the radio station. Such statements might seem out of place in the context of a cartooning book, but Scott and Ex speak with such respect and passion for hip-hop culture that the occasional asides are welcome. There is no other book of this kind on the market, making it a necessary and relevant purchase.—Steev Baker, Kewaskum Public Library, WI

By time is running out

I got this book for my nephew who's serving time in jail, for defending his self against a well known gang man, who was going to kill him. I hope by in proving his drawing skills it will help him when he's release from prison. This will keep him busy.

Interesting

By W. Pardlow

I got this mainly for the Daimon Scott artwork, and its loaded with it. Some of the subject matter left me a little distant. But over all a interesting read.
