Housed within the Ikoma Libraries and the Temple to Tengen are the Imperial Histories, the chronicles of the Emerald Empire. Compiled over a thousand years by adept historians, studied by scholars throughout the lands of the Jade Sun, and containing the wisdom of generations, these documents are a testament to the favor of the Heavens. Their pages tell the story of an Empire that is destined for greatness. But as the candle-light's flickering flame illuminates the history of an Empire, it casts obscuring shadows as well. Dark times that were judged better left forgotten, buried deep, hidden... or omitted entirely. And the trenches of time sometimes diverge in places, like the reflections of a scrying bowl ripple and change, becoming something else entirely. Yet every era, even those that were darkest, had its heroes. Even in those distorted images of an Empire that never came to be, honor has always been stronger than steel. · Thirteen new eras in great detail, including the Reign of the Shining Prince, the Era of the Four Winds, and the Age of Exploration! · Also including bold new alternate settings such as the Togashi Dynasty, the Shadowed Throne, and the Empire of the Emerald Stars! · In depth looks at the clans and characters of each era, and great ideas and inspirations for your own campaigns! · All new Schools, ancestors, techniques and more, some thought lost to the ages.

Very happy with my purchase!

By Lundr

It arrived in great shape, and the content is great for filling out and expanding any L5R campaign, assuming your interested in using the various pieces of history. Artwork is fantastic, as usual, and the binding on my copy has remained solid, and I have had this book for several months by the time I wrote this review.

I love it but.....

By Nicholas Jowett

The constant high quality that AEG aims for is applaudable and it is only from years of work at a library that I down rate this wonderful book. It could have been 5 stars if, there were no gramatical or layout errors and they didn't recycle artwork.

The actual meat of the product, ideas, settings and new information is outstanding and it is a pleasure to see that input from fans of their products is considered and featured.

There is no 4.9 stars which is hair splitting I know but if you want 5 stars, Proof your copy before print!

Now go ahead and pick apart my review for proofing errors, I can take it.

Great resource for the Rokugan Fan

By VulCorLup

This sequel to "Imperial Histories" gives more in depth information to the background of the histories of Rokugan, as well as its future and alternate timelines. The book is well written with beautiful artwork, even if you don't use the L5R 4E, this is an awesome resource for the D20 version of the setting! Hopefully AEG finally updates us with more tidbits of the rest of the world of the L5R settings. I really want to know more about the land beyond the Rokugan Empire and the Burning Sands.
