## **BY PETE WELSH PDF**

When Pete Doherty was imprisoned for burgling his best friend and bandmate Carl Barat in August 2003 it seemed the light had gone out on Britain's most exciting new band. Released early and reconciled with Barat, The Libertines confounded the critics by rounding off 2003 with three triumphant sold-out shows at London's Forum, and kicking off 2004 with the prestigious Best UK Band gong at the NME Awards. By the time their eponymous second album entered the charts at No. 1, Doherty was once more exiled from the band - kicked out by Barat for his continued drug use - his side-project Babyshambles going from strength to strength, leaving The Libertines facing an uncertain future just as they are feted as THE saviours of British rock. Now for the first time the full, extraordinary story of the most gifted yet nihilistic London band since The Sex Pistols is told in 'Kids in the Riot: High and Low with the Libertines'. With the complete co-operation of the major players in their gloriously destructive ascent and drawing on his own archive of unseen photographs, Pete Welsh documents the break-ins, break-ups, punch-ups and make-ups in the phenomenal rise of The Libertines....

I liked It

By G. harry

The Libertines cd's, I play them a lot. I enjoyed reading about the band. It is set up where the author presents what I assume are direct quotes from the bands members, and people close to the band, and then he writes his own conclusions.

If you are a fan of the Libertines, or music in general, you might enjoy it. I recommend it if you like the libertines at least.

Thanks for reading my review!

5 of 5 people found the following review helpful.

One of the best books ive ever read.

By E. Aguilar

I could not stop reading this as hard as i tried to. I loved it. I finished it in about 4 days. It even got me into other bands. It is really sad at times and itll make you laugh at other times. If I was you I would definitely buy it.

The Libertines ARE BACK TOGETHER in 2015!!

By Hanna M. Thompson

I started reading this book at 10pm and read all through the night, finishing at 6am. Crazy!! I still cannot believe that happened as I value my sleep above all else. But it was worth it, and I just couldn't put it down. I must admit I am a bit infatuated with Pete Doherty. To be more exact, I am in love with his mind. He is such a creative, artistic, poetic individual, albeit a tortured soul. He has charisma by the boatloads and together with his ex-bandmate and "bromance" partner Carl Barat it is hard to get enough of them. Their chemistry together is just unparalleled, & highly entertaining. It actually makes me believe in love again. It wasn't just music, it was an ideal... something raw, powerful, brave... something to believe in. We'll sail on the good ship Albion until we find Arcadia, some day... the quest is what truly matters though. This was a great account of the early years because it was compiled by a friend of The Libertines', who was in the midst of a lot of the chaos. It is presented in the actual recorded words of Peter, Carl & many others presented in the story, which means that it is not always proper grammar or even complete thoughts, but it feels very real. A fascinating insight into their feelings and perceptions on what was happening during their rise to fame and heartbreaking demise. Everyone would have expected Peter to be dead of a heroin overdose by now, but against all odds in the year 2015 he is clean and The Libertines ARE BACK TOGETHER!! Who woulda thunk it, all original members too. They're doing a 2016 European tour so if you love this band as much as I do, you may actually get a chance to see them live (they are fabled for their live shows). Great read!
