Great book. A classic that covers all aspects of mycology that a lay person can understand. Got it as a gift for an elderly neighbor who lives on a farm and wants to grow mushrooms. Highly recommended. A great deal for the price too.

Good book , no illatrrations

By TheRock

This is a great book . The problem is that the book will refer to illustration fig. 10 but the illustration is no where to be found. All I can think of is the the publisher did not print the illustrations with the rest of the

book.
