Dammmmmmmnnnnnn!!!!

By Author Lore

This is the first book I've read by Racquel and let me tell you she did not disappoint. From page one, I was addicted. The characters were intriguing and I wanted to know what was going to happen next. I thought I would need my asthma pump from all that was going on in this book, and I don't even have asthma. LOL!! I know from the way it ended, there has to be a part 2. Can hardly wait to find out what happened after Destiny returned home.

Dynomite!!!

By Patricia Charles

Amazing read!!!! This book started with a bang and ended with one....Raquel Williams really brought the heat with this one. Step into the lives of Destiny, and independent women who was content with her life and then there Hassan. Once he entered her life everything changed. Then we got destiny the side piece and that is one women words can't explain. This book is for all them wives who have been done wrong. This is a must read and you won't be disappointed!!!

Spectacular Read

By LaTanya Garry

Hassan was a trifling disrespectful mess. He was selfish and only out for himself. But he had to learn the hard way about Karma when he found out what Imani was doing. Imani was silly but I realize she's like alot of other women walking around and allowing a man to sell them a dream and having a one track mind. Destiny tried her best to do right by Hassan until she said enough was enough.
