A small book on the Olympick Spirits as described in the Grimoire known as the Arbatel --- why, how and when to evoke them. These Spirits represent the seven Astrological planets:

Aratron = Saturn

An Accessible and Personal Approach to Working with the Olympic Spirits

By Suba

I agree with Leonte when he talks about how cultural spirits have a specific feel. And while Leonte claims the Olympic spirits have a Hebrew/Kabbalistic feel, I think of them more as fusion energies, growing out of many different traditions rather than just the Jewish lineages of magic.

One thing I like about Leonte's text is his personal relationship with the spirits. As the author states in Location 38, I as well found Aratron to be more inviting than other Saturnian energies and intelligences. I find the Olympic spirits to be more like guides within the planetary spheres rather than representative's of the energy itself.

In Location 42 Leonte tells us that, unlike the traditional grimoires with a butt load of things to acquire, all we need to work with these energies and intelligences is their names and sigils. It does not hurt to have other things that resonant/embody the planetary energies so as to deepen and extend our relationship with that plane, but in the end, as the author states, it is unnecessary.

Leonte's Olympic ritual is simple and to the point. That is very refreshing. I myself have found doing ritual in such a manner to be more personal and effective.

As for Leonte's description and list of correspondences for each Olympic Spirit, it is the same as is found in the source material for these spirits, the Arbatel Grimoire.

Being a practicing magician who has studied the occult traditions for a few years now, I have to say I did not find anything new. Having said that, I do believe the simplicity of Leonte's approach/rituals and his personal experiences shared throughout the text offer aspiring adepts a nice introduction to working with the Olympic Spirits.

Everything needed to work with the Olympic Spirits is here. I would still suggest, as the author does, that you either download the Arbatel from the internet or purchase a copy of it: Joseph Peterson's version is the best in my mind. There is a lot more to the grimoire than what Leonte offers in this text.

As for Leonte's book, he finishes it with a few words on magical evocation that I found to be enjoyable and agreeable with my particular tastes.

So, for those who are new to working with the planetary energies, this is a good book to get. It is safe, positive, honest, simple, and accessible.

I haven't had a chance to try the practices yet but this book was a good read. If you are looking for a short introduction to planetary magic or if you are familiar with it and you are looking for a streamlined practice, this is the book for you. The Olympick spirits are perfect for those who wish to avoid the "baggage" associated with Jeedo-Christian angels or Graeco-Roman deities. This book is for someone who already has a good foundation in magical theory.

Precious Jewel from Ancient Times in Modern Way

Nice and practical information. Anousen Leonte also gives insights about nature of this kind of magic. Arbatel is one the famous texts, even praised by E. A. Waite, and 'Olimpic spirits' are heart of the system in practical way. Thanks for this nice book!
