The newest title in this affordable photography series highlights the work of Paolo Roversi.

Born in Ravenna, Italy, in 1947, Paolo Roversi discovered photography at the age of seventeen on a family holiday. A chance meeting with photographer Peter Knapp led him to move to Paris in the early 1970s, where he first encountered the world of fashion. His career truly began when he became an assistant to Laurence Sackman, who taught him the photographer's craft.

Now based in Paris for more than thirty years, Roversi is famed for his use of large-format Polaroid film to capture images of ethereal beauty, vulnerability, and romanticism. Working in evocative monochrome or carefully articulated color, he collaborates regularly with the world's top supermodels and designers, and has photographed for many leading fashion magazines and international ad campaigns.

Little pearl

By juan

I recently discover the work of Roversi, and I wanted have a book of him, I purchased this one because is cheap, and I discover that the good things sometimes came in the simple ones. I love this little book, the pictures are so beautiful and it seems like there's a story in the pictures, and I feel like Roversi is telling the story of his career in few pages and showing a bit of his technical skills and the majesty of his portraits.

Bought this sort of as an afterthought a while back. Excellent portraits. Excellent book. I hadn't seen much

work by Roversi previous to this. If you are thinking about buying it and want to look at a good selection of his work, type in Roversi in Google Images. The book is very well worth the eleven bucks or so it cost.
