Another great book from the artist

By Willow Eaton

I was so excited to learn Dan Reeder had written another book. I own all of Dan's books, and use them frequently for reference during my own creative process.

Have you ever purchased an art book that you hoped would give you instructions on how create the way the artist does, only to find the book is just ego-stroking for the artist and of very little use to you? Well, that won't happen with this book, or any of Dan Reeder's books, for that matter. Dan is a very generous artist. He has a strong online presence, and shares his techniques, tips, and clever sense of humor freely.

This book shows you step-by-step, from start to finish, how to create two magnificent dragon art pieces: the cover dragon and a dragon head trophy. Dan's instructions are clear and concise. He's elaborated on many points from the book's previous version. He encourages you along the way to create your own piece of art, and to not worry about it looking like his. He also keeps you entertained by tucking away little hidden gems of humor (how DID Riley get in the bathtub?). He tells you where you may become frustrated--such as with the application of a gazillion scales--but, encourages you to stick with it because the end result will be so worth it.

This book, like Dan's other books, is a gem. An indispensable addition to your artistic library. It is as visually appealing as it is informative. Buy the book, make a dragon, hang it in your house, impress yourself, your friends, and family with your talent. And, don't forget to tell them Dan showed you how.

This is the best paper mache book I have ever seen. The author is wonderful and truly talented. If you are into art projects, DIY costumes, masks or just paper mache in general, this book is a must have. Here is a photo of my first project that I made following the instructions in this book.
