By doing this, you will certainly also spend money to spend for transport and other time invested.

PHILOSOPHIES AND THEORIES FOR ADVANCED NURSING PRACTICE (BUTTS, PHILOSOPHIES AND THEORIES FOR ADVANCED NURSING PRACTICE) BY JANIE B. BUTT PDF

Philosophies and Theories for Advanced Nursing Practice, Second Edition was developed as an essential resource for advance practice students in master's and doctoral programs. This text is appropriate for students needing an introductory understanding of philosophy and how a theory is constructed as well as students and nurses who understand theory at an advanced level. The Second Edition discusses the AACN DNP essentials which is critical for DNP students as well as PhD students who need a better understanding of the DNP-educated nurse's role. Philosophies and Theories for Advanced Nursing Practice, Second Edition covers a wide variety of theories in addition to nursing theories. Coverage of non-nursing related theory is beneficial to nurses because of the growing national emphasis on collaborative, interdisciplinary patient care. The text includes diagrams, tables, and discussion questions to help students understand and reinforce core content.

Unbearable

By Andrea N. Harris

This book reads like non-sense. I have to read and re-read to even figure out what the author is trying to say. Only to find out that the same idea is repeated throughout the next four pages. Also, the Kindle version does not have page numbers, which makes reading assignments difficult to find. The Kindle version search feature is nice. Wish it had x-ray though.

5 of 5 people found the following review helpful.

booring mumbo jumbo

By Amazon Customer

I only purchased this book because I HAD to for school. Personally, I don't think they should require nursing theory in grad school. Book was a snooze, besides you can get nursing theories online now.

4 of 4 people found the following review helpful.

Theory

By Monab

Barely read this book since my instructor used power points that were obviously directly from the book. It is,

however, a great reference for what you possibly cannot find.
