A Must for Both the Classroom and the Home

By A Communication Professional

Richard Kallan's approach to writing is found in his concisely constructed acknowledgement page. In less than 55 words, he has broken down the mastery of good writing into its three components: the sentence, the

paragraph, and the page. His approach is systematic, logical and effective. Above all, it will produce the desired results: a thorough renovation of one's writing.

Renovating Your Writing is written by a professional teacher and writer with a background in English, Journalism, Business, and Communication. With its very strong focus on organization and outlining, it will appeal to both the textbook and the trade book world. Of great use to the reader are the author's detailed comparisons of both good and bad writing: original text versus revised text. Breaking down the revision process into discrete steps, we become familiar with the strategies and tactics of good writing and with the imperative necessity of continuous rethinking, rewriting, adding, deleting, repositioning, and editing of all kinds.

In our image-based society, this book is a must for both the classroom and the home. It will help one learn the fundamentals and the refinements of written communication. Good writing is an art and this book makes one conscious of the infinite choices available to us as we interact with the written word. Renovating Your Writing will help the reader learn to write in a clear, concise, and compelling way.

A Useful Addition to Your Life

By A Reader

If you were not born blessed with the perfect pitch for writing expository prose, be sure to protect this book under a solid cover for you will refer to it many times.

In a text that reflects the very values it aims to teach, like well organized thought, clear and concise expression, Kallan good-humoredly guides you to a spare, lucid style. Your readers will not wonder: "What does this mean exactly?" nor yawn in boredom. They will be surprised that an arcane subject (philosophy? science? metaphysics? instructions from the dean?) has suddenly become crystal clear---perhaps, even, entertaining.

Your horoscope predicts that your style is about to show great and continued improvement today.
