The A-Z of 13 Habits inspired by billionaire Warren Buffett. “The message is not about the money, as much as it is about attitudes, behaviors and thought processes that relate to the resources around us – money, the planet, home, friends.” says Dr. John Hattie, Professor of Education, Director of Visible Learning Labs. “These ‘big and rich’ habits can be understood by even the youngest of children. To see children afire with ideas and questions after hearing the story and to see them make connections to their lives – these are the art of a true story teller.”

A beautiful experience

By Nils

Absolutely lovely!

Each page gives you a great opportunity to discuss different important topics with your kids.

I've had the pleasure to meet the author in person and I love the whole project.

Definitely a project worth following.

Happy to see that he recently made it to the tv-news with his project:

A must-read!

By Alpo

The A-Z of 13 Habits: Inspired by Warren Buffett is a story that is very engaging and enjoyable to read. If I

had only read this book when I was a kid, I probably would be a lot better off financially than I am currently. This book should be a must-read!

If anyone ever milked a brandname... AVOID!

By George Linardakis

Bought the 'A-Z of 13 Habits: Inspired by Warren Buffett' along with the "The tale of Tortoise Buffett: Inspired by Warren Buffett" by Lucas Remmerswaal.

As I have 3 kids in the tender age of 4-6 and as a longtime professional investor myself, I hoped this book would indeed introduce some of the Buffettesque wisdom in a subtle way to my children.

How incredibly disappointed was I, when I received and read what turned out to be these two naive leaflets, for they cannot be called children's books.

This is such a blatant attempt to milk the Buffett brandname from well-meaning parents.

The text is atrocious, no structure and absolutely without any didactic value. It smacks of a back-of-the-envelope hurried cut-and-paste of Buffett's generic rules that us adults have come across in the numerous books about the sage and indeed by the man himself in his annual shareholder letters.

It is absolutely not for children (not mine anyway), it is so out of touch and out of its depth ( I mean how hard can it be??). I expected something kids can relate with and be excited about... in contrast the author believes that by drawing a semblance of Buffett on each page and by promoting Coka-Cola the kids would somehow have their internal light bulb switched on... to Buffett's original musings.

I truly did not expect one of my worst investments ever would have been in the name of Buffett, but I guess everyone can be suckered in when our guard is let down so fancily.

Aesop's tales are a million times better than this ... and they were conceived a few thousand years ago...

Very big shame, and a total waste of time, expectations and money. So unlike what Buffett should stand for.
