Excellent book!

By reader 211

I must confess: the first time I heard about Senna was when I saw Asif Kapadia's film. I've never been interested in motor racing, in fact in any kind of racing, generally speaking I'm not into sports. I went to see the film just because it was presented as a documentary and I loved it. Brilliant. I was totally fascinated by Senna's complex personality, his charisma. I saw the film several times, then I started to buy books and read about him and his absolute passion for formula 1. I think Senna was a gift to Formula 1 taking into consideration that even now, 17 years after his death, his personality is capable of making new fans. And this is good for all the drivers of that era, otherwise they are almost forgotten or unknown (to those who are not formula 1 fans). I would've never known that Alain Prost,G. Berger, Ron Dennis,and so many more ever existed if I hadn't have the wonderful opportunity to watch the film and see the real Senna in action. I am so happy that his life never became a biopic made in Hollywood with an actor in Senna's role. I loved the book written by Richard Williams. First I read another book and I was kind of disappointed although it contained lot of information. I didn't like the style though and I was disappointed thinking that Ayrton really deserves much better writing. The way Asif Kapadia made such a compelling film, Richard Williams accomplished in

the book. I read in two days and I loved it. I highly recommend it.

Gives you what the documentary could not

By Masood Siddiqui

Well written. Gives insight into Senna's life and his death in ways a documentary (The excellent 2010 Senna film directed by Ashraf Kapadia) just could not due to time restrictions.

0 of 0 people found the following review helpful.

intelligent examination of what makes a legend

By Hazel Purre

Subtle and insightful, this skilfully written book covers the making of Senna's glory years and the aftermath of his fatal crash. It helps the reader to appreciate the human and sublime aspects of genius.
