THE SPORTS MEDICINE PATIENT ADVISOR BY PIERRE ROUZIER, TAMMY WHITE, TOM GILFILAN, JANE JOHNSON, PIERRE A. ROUZIER PDF

The Sports Medicine Patient Advisor contains easy to copy patient education handouts. This is the book that needs to be on every health care provider's bookshelf and should be used constantly. Preprint the topics that are common to your practice and have them readily available to give to your patients. Review the handouts with your patients and be sure they understand how to do the rehab. Your patients will really appreciate learning about their sports injuries or problems and will love getting a home rehabilitation program and a plan that tells them when they can return to their sport or activity.

The information contained in this book refers to the use of rehabilitation aids that can be found anywhere - weights in a gym or a person's office or items found at home like a soup can or a hammer!

This is the resource that will improve patient satisfaction, compliance and return to action! No patient with a sports related problem should leave your office without receiving a handout.

Use it everyday in Family Medicine Practice

By Amazon Customer

I am a family physician 8 years out of residency.

I still use this almost everyday for help with diagnosis as well as guidelines for treatment.

Besides sports injuries it also has a helpful section on general workouts, pregnancy workouts, nutrition...

The only way this could be better is if you could get a CD or weblink to print out the handouts. I wore out the binding pretty quick laying it open on a copier.

Great Reference Book

By Mary

I am a Certified Athletic Trainer working in a high school setting, and I have found this book to very helpful over the past few weeks. I realize this isn't the newest version of the text, but it is great nonetheless.

Excellent patient resource.

By C. Kelly

This book does an excellent job of explaining injuries, management, and prognoses. Expect only the most common MSK injuries. It really is a wonderful patient resource!
