Showed me where I needed to study

By SefinaHawke

TOEIC Test Practice Exams 2016: TOEIC Book & Preparation Guide with Reading, Writing, Listening & Grammar Practice for the TOEIC Test is a well written and well organized book that is designed to help people to pass the TOEIC Test. The TOEIC Test stands for Test Of English for International Communication. I found this book to personally be very helpful for deciding if I needed to study before taking the TOEIC like I plan to in a year. Since I have grown up speaking English I did not really think that I would need to study, but I am very glad that I got this book as it showed me that I do need to brush up on some of my grammar and listening skills before the test if I want to get a high score. The practice questions really helped me to figure out which areas I need to study for and which ones I could pass right now.

Pros:

TOEIC Vocabulary

TOEIC Reading

TOEIC Writing

TOEIC Listening
TOEIC Grammar
Organized
Well Written
Easy to Understand
Practice Questions
Explanations of practice Questions

Cons:
None

Trellis got it right!

By Ricky W

When it comes time to take the TOEIC, many people look all over for the highest quality practice and prep books. Look no further people! This book is perfect as it's filled with reading, writing, and listening and grammar samples to gauge your readiness for the exam. It's not an overwhelmingly long book or test exam, only 136 pages (including half that are answers.) While numerous other companies provide more complex practice exams, this one is clean-cut, easy to dive-in and the perfect measure to gauge your success. Trellis got it right!

you won't feel like you've skipped anything and you truly get a feel ...

By Kevin

Thorough and explained, this preparation for the TOEIC will make you feel confident going into test day! With a wide variety of questions, you won't feel like you've skipped anything and you truly get a feel for what the test will actually be like. There are some weirdly worded questions and some of the dialect is off but it's perfectly easy to understand. This is the closest prep you'll get to being ready for the actual test, without all the gimmicky introductions and unnecessary frills!
