You can take the benefits as well as discuss it also for your close friends and people around you. By in this manner, you could really obtain the meaning of this e-book **Toward A Feminist Theory Of The State By Catharine A. MacKinnon** profitably. Exactly what do you assume about our suggestion right here?

From Library Journal

A theoretical legal treatise from activist attorney MacKinnon (*Sexual Harrassment of Working Women*, LJ 6/1/79; *Feminism Unmodified*, LJ 5/15/87), co-author of the controversial Dworkin-MacKinnon anti-pornography civil rights ordinance. She begins with a discussion of feminism and Marxism, because (as she explains) the latter is the only contemporary political tradition to confront organized social dominance as a dynamic. She goes on to analyze feminist method (consciousness-raising) and the knowledge it reveals; and what she calls feminism unmodified (radical feminism) as a post-Marxist methodology. She explores issues of sexuality/gender and how they contribute to women's oppression and the role of the liberal state in promoting it. Revealing, closely reasoned, densely written, this is not easy reading, but sure to be hotly debated among academicians and intellectuals. For university libraries.

Review

The single most important book in the new jurisprudence...It is, in my opinion, the only book in legal theory produced in the twentieth century which can rank with H. L. A. Hart's *The Concept of Law* (1961). Both change the framework and transform the paradigm of the theoretical debate. All discourse within the framework of liberal legal theory has had to place itself in relationship to the ideas and theories of Hart. All feminist legal theory, likewise, must place itself in reference to the writings of MacKinnon. Her work, however, is much more significant than that of Hart, because her perspective has the potential of social revolution. (Canadian Bar Review)

Looking at the female and male halves of the world equally transforms everything--and *Toward a Feminist Theory of the State* makes that clear with scholarship, courage, and wit. By exposing and correcting the patriarchal values underlying nationalism and justice, Catharine MacKinnon causes an earthquake of thinking that rearranges every part of our intellectual landscape. This book is a "must read." (Gloria Steinem)

[MacKinnon] convincingly links sexuality and violence. But what I value in this book is the leap of faith to a search for practical remedies for women's situation. (Naomi Black Toronto Globe and Mail)

TOWARD A FEMINIST THEORY OF THE STATE BY CATHARINE A. MACKINNON PDF

Toward a Feminist Theory of the State presents Catharine MacKinnon's powerful analysis of politics, sexuality, and the law from the perspective of women. Using the debate over Marxism and feminism as a point of departure, MacKinnon develops a theory of gender centered on sexual subordination and applies it to the state. The result is an informed and compelling critique of inequality and a transformative vision of a direction for social change.

Foundational Work

By A Customer

MacKinnon's work on social constructionist radical feminist is the most eloquent, powerful, persuasive articulation of the field to date. "Postmodernism" could learn a lot by looking back to MacKinnon and REALLY understanding what she has to say instead of dismissing her work as 'essentialist.' MacKinnon continues to be a brilliant, important voice in feminism despite its energies being tapped by unfortunate new movements in academic that have distracted young scholars' attention. A Must Read.

Brilliant

By Mr. R.

The writing of Catharine MacKinnon is the most thorough and conclusive explanations of male domination in our society that I have had the pleasure of exploring. It refutes many other feminist theories and then gives a solid base for her own explanation of feminism. I highly recommend this writing to anyone interested in feminism or political theory.

And now for something different..

By hermione31

MacKinnon's most noteworthy contribution to jurisprudential thought has been to point out the patriarchal assumptions of the U.S. Constitution, in light of modern feminist theory. In Towards a Feminist Theory..., MacKinnon writes an almost Foucaultian analysis of current constitutional jurisprudence -- the post-modern assessment of individual thought censorship as perpetrated by the male-dominated forum of political discourse is prevalent in many of her works but particularly, in this one.

She is a compelling and dramatic writer and while her arguments run the gamut -- from the distastefully provocative to rigorously logical to total raving rants, it is impossible to dismiss her entirely. I recommend that those interested in her writings read the law review articles she has written on similar issues. It should be taken with the grain of salt, however, that her biases against men in general are profound and even disturbing.
